

Launch of the Marsden Village Resilience Fund

Can you help us help vulnerable people in Marsden who will be affected by the coronavirus crisis?

The Village Green is setting-up a Resilience Fund which will be used to create a food box scheme to help people in the village who are struggling

We will be working with other local businesses and organisations and with support of Cllr Rob Walker

If your income is relatively unaffected, can you afford to donate or even set-up a standing order for the duration of the crisis?

Perhaps you could give the money you might have spent commuting to work, or the price of a night out?

There will be lots of ways to donate

THANK YOU IN ADVANCE
